

RRFTA24 Tank Adapters

Applications

Orenco RRFTA24 Tank Adapters are designed to provide a structural, watertight method of attaching access risers over tank openings in concrete tanks that don't have cast-in adapters.

General

Orenco RRFTA24 Tank Adapters provide watertight connections between PVC risers and concrete tanks. It has a centering ring for attaching a 24-inch (600-mm) PVC riser.

An RRFTABDKIT bolt-down kit is used to attach the adapter to the concrete tank. The kits include stainless steel concrete anchor bolts and butyl sealant tape.

Standard Models

RRFTA24, RRFTABDKIT

Materials of Construction

Tank adapter	Fiberglass reinforced polyester (FRP)
Anchor bolts	Stainless steel
Sealant tape	Butyl

Specifications

Dimensions, in. (mm)

A	30 (762)
B	18 (457)
C	23.3 (592)
Thickness	1/4 (6)
Maximum tank opening size (round or square opening)	24 (600)
