EZ SERIES® PLUGGER POST

For use with one Single Phase Pump

Function

This easy to install control panel provides a convenient wiring connection for use with one single phase pump in effluent and sewage installations. It features a receptacle to accept a 120V or 240V pump and piggy-back pump switch.

The post has an access door and simplex installation kit which includes a 4-hole cord seal to allow piggy-back and pump plugs to be easily routed and sealed into panel.

Features

- Receptacle accepts 120V or 240V pump and piggy-back pump switch plugs
- Includes Tank Alert® AB remote alarm
- Includes 15' SJE SignalMaster® control switch
- 34" Mounting Post has access door for easy wiring
- Includes Simplex Installation Kit:
 - 2" Hub Assembly
 - 2" Cord Seal (seals 1-4 cables)
 - 3/4" Hub Assembly
- Includes Riser Mounting Kit:
 - 2" Hub Assemblies (2)
 - 2x6" PVC pipe and connecting hardware
 - Conduit for routing pump and float from tank riser to post
- Elapsed Time Meter
